MOQ: 3 pcs

Color: White with grey pattern on one side and reversed on the other

Jacquard woven blanket, polyester/cotton 65/35 %, 130x160 cm + 5 cm fringe.

About us

Pufz's story began as a project back in 2010, just after Annas's daughter was born.

You need to learn a lot as a new mom. Managing meals, keeping track of nutritional content, and what's good and not so good for your child to consume. Not to speak about how to fit it all into your brand-new everyday routine.

All the practical details and fuss around food time were the inspiration behind Pufz's first product - a freezer container for baby food so you can spend more time with your baby and less time preparing food several times a day.

The daughter's nickname "Pufz" gave the business its name. Anna used her knowledge as an engineer to design a baby food freezer container made from food-grade silicone.

If you think that the idea proved to be spot on, you're right.

The freezer container was the first in a long line of practical and decorative products focusing on making your everyday life easier and making it a little more fun, a little nicer, and a little smarter.

Today, you'll find a wide range of tools for aspiring bakers and pastry chefs both at home and as professionals.

You'll also find well-thought-out children's products that make everyday life easier while being safe for both the child and the environment.

And as icing on top, you can choose from an abundant selection of fun gifts that combine utility and functionality with our Swedish culture in all its diversity.

We love challenges and are inspired by your wishes. Get in touch and bounce your ideas off of us. Yours might be the next one in Pufz's expanding range.

Our goal has always been to create innovative products based on what our customers demand. We put the customers at the top of our agenda and appreciate your questions or feedback on which products you are missing and how we can be even better for you as a customer.

B2C sales take place through any of our retailers or in the webshop at pufz.se.

Retailers trade either directly through us or through one of our outreach sales agents.

Industrial applications and customized products

Do you have a product idea that you believe in but need help to bring it to life? If so, we can help you.

Anna takes care of industrial customers as well as design and production of your company's product idea personally with enthusiasm!

Over the years, we have helped companies to produce their own products, such as furniture feet in silicone, gaskets for radio equipment and molds for hamburgers.

The materials we prefer to work with are silicone and textile, but we have the opportunity to help with the production of other materials.

There is also the possibility of customizing our already existing products. If you want a Pot Holder in your company's Color with your own print on it, we can arrange that too.

We love challenges and are inspired by your wishes. Get in touch and share new and fun ideas with us. Welcome to contact us. All contact details can be found at the back of the catalogue.
